HOW RISKY IS IT?

The value of the Fund could go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility."

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

NO GUARANTEES

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

RISK RATING

PFM Capital Inc. has calculated the volatility of the Resource Class R-share as Low to Medium, but due to the increased liquidity risk associated with LSVCC investments and the increased sector concentration risk associated with the Resource Class, the risk level has been increased to **Medium-High**. This rating is based on how much the Fund's returns have changed from year to year and the liquidity risk of the Fund. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

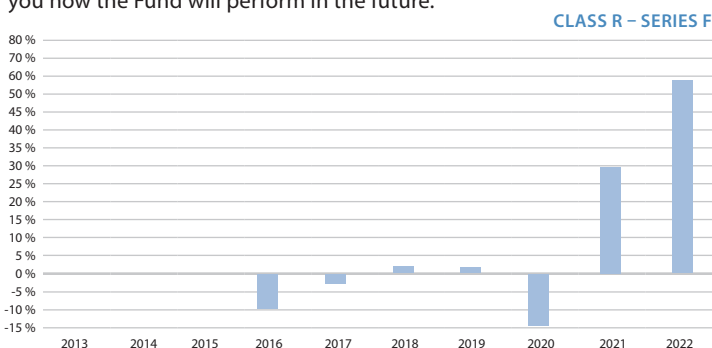

- The risk rating is based on methodology prescribed by the Canadian Securities Administrators ("CSA") which is derived from the standard deviation of monthly returns on investment over the past 10 years utilizing a reference index if 10 year returns are not available.
- This methodology may not fully capture the risks associated with investment in an LSVCC. For example, LSVCCs have a higher than average liquidity risk. Liquidity risk refers to how difficult or costly it may be to divest of an investment held by the Fund. Rules applicable to mutual funds directed at ensuring liquidity do not apply. There are restrictions on the transfer and redemption of shares including a risk that redemption request may be declined by the Fund. Coupled with volatility risk, liquidity risk increases the overall risk profile of the Fund. Redemption of shares prior to the Fund's government-mandated eight year maturity period having lapsed will trigger tax credit repayments.
- For more information about risk rating and specific information that can affect the Fund's returns, please see the Risk Factors in the Prospectus.

HOW HAS THE FUND PERFORMED?

This section tells you how SaskWorks' Resources - Series F shares have performed. Returns are after expenses have been deducted. These expenses reduce the Fund's returns.

YEAR-BY-YEAR RETURNS

This chart shows how SaskWorks' Resources - Series F shares performed since inception. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

BEST AND WORST 3-MONTH RETURNS

This table shows the best and worst returns for SaskWorks Resources - Series F shares in a 3-month period since inception. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 Months Ending	If you invested \$1,000 at the beginning of the period
Best Return	27.02%	2022-05-06	Your investment would rise to \$1,270.16.
Worst Return	-19.62%	2020-04-03	Your investment would drop to \$803.85.

AVERAGE RETURN

A person who invested \$1,000 in SaskWorks' Resources - Series F share class since inception now has \$1,677.40. This works out to an annual compound return of 8.13%.

WHO IS THIS FUND FOR?

SaskWorks' Resources - Series F shares are appropriate if:

- You want to gain exposure to investments in privately-held Saskatchewan companies;
- You have a long-term investment horizon and are comfortable with the Fund's 8-year maturity period;
- You are able to tolerate the relative volatility generally associated with the resources sector and the private equity asset class; and
- You have entered into an agreement with your financial advisor or representative whereby they are compensated for their services in a way that is consistent with the use of an F-series (non-commission paying) security.

A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan, such as a Registered Retired Savings Plan (RRSP). SaskWorks Venture Fund is not eligible to be held in a Tax-Free Savings Account.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Resources - Series F shares of SaskWorks Venture Fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at lower cost.

SaskWorks offers a No Load (NL) option only.

1. SALES CHARGES

There are no sales charges levied by the Fund. The F Series is meant for sale in a fee-based account and does not pay dealers a sales commission or trailing commissions.

2. FUND EXPENSES

You do not pay these expenses directly. They affect you because they reduce the Fund's return.

As of August 31, 2022, the expenses attributable to the Resources share class Series F were 12.88% of its value. This equals \$128.80 for every \$1,000 invested.

MORE ABOUT TRAILING COMMISSIONS

There are no trailing commissions for this share class.

*The Management Expense Ratio includes an incentive participation amount (IPA) that is equivalent to 9.74% of the Fund's value. The IPA is payable to the fund manager based on certain performance criteria being met. For more information please refer to the Fund's prospectus.

FUND EXPENSES	12.88%

3. REPAYMENT OF TAX CREDITS

Saskatchewan's Labour-Sponsored Venture Capital Corporation (LSVCC) Act mandates that investments in SaskWorks Venture Fund be held for eight years less 30 days, at which point they are considered "mature" and eligible for redemption. If you opt to redeem your shares prior to the maturity period having elapsed, you will be required to pay back the Federal and Provincial tax credits you'd received on the shares redeemed, calculated on your original purchase price. Your tax credit repayment will be netted from your total redemption amount and paid to the Federal and Provincial Governments on your behalf.

4. OTHER FEES

Wyth Trust, the Fund's custodian, may charge a \$35.00 plus GST one-time administrative fee for the set-up of a client-name RRSP account.
